WSGO Low-speed Granulator

**Features**

- Screenless design with least dust and uniform granules.
- Adopted Taiwan brand gear reducer with higher torque and long service life.
- Can process coarse and small materials simultaneously.
- Gear reducer and shaft are connected by coupling for smooth operation, low noise.
- Hopper and machine structure are easy to access and clean.
- Consisted of main power isolator for safety.
- Equipped with cycle timer, it can automatically start and stop working to save power.
- Hopper is standard configuration.

**Optional Configuration**

- Material storage trolley.
- Robot arm feeding port.
- RFC-0.75HP cyclone system for proportionally mixing the virgin and regrind materials.

**Specifications**

- Model: WSGO380

注：标准高度为人工投料口，若机械手投料口高度应再高 20cm。
Note: The standard height of hopper matches with manual feeding, while the height needs to increase by 20cm to match with robot arm.
